

7/8" female recept. front

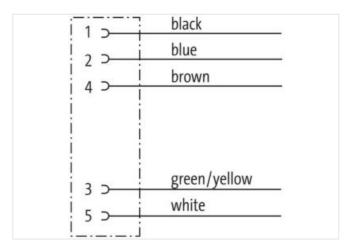

Wires 5x0.75 0.2m

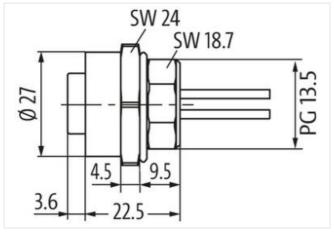

Flange female 7/8" (5-pole) with multi-strand wire

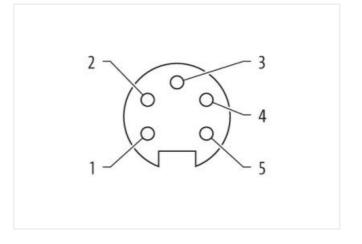

Link to Product

Illustration

Product may differ from Image

Cable length	0,2 m	
Side 1		
Tightening torque	1,5 Nm	
Coating contact	gold plated	
Family construction form	7/8"	
Thread	7/8"	
Material contact	Brass	
Width across flats	SW24	
Commercial data		
ECLASS-6.0	27279218

ECLASS-11.1	27440103
ECLASS-12.0	27440103
ETIM-5.0	EC001855
customs tariff number	85444290
GTIN	4048879134644
Packaging unit	1
	•
Electrical data Supply	
Operating voltage AC max.	600 V
Operating voltage DC max.	600 V
Current operating per contact max.	6 A
Device protection Electrical	
Degree of protection (EN IEC 60529)	IP68
Additional condition protection degree	inserted, screwed
Rated surge voltage	4 kV
Material group (IEC 60664-1)	III
Mechanical data Material data	
Coating housing	nickel plated
Material housing	Zinc die-casting
Mechanical data Mounting data	
Mounting method	inserted, screwed, Shaking protection
Environmental characteristics Climatic	- `
Operating temperature min.	-25 °C
Operating temperature max.	85 °C
Additional condition temperature range	
	depending on cable quality
	depending on cable quality
Important installation notes	
	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties.
Important installation notes	
Important installation notes Note on strain relief	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be
Important installation notes Note on strain relief Note on bending radius	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be
Important installation notes Note on strain relief Note on bending radius Installation Cable	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces.
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement Cable identification	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow 978
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement Cable identification wire arrangement	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow 978 brown, white, blue, black, green-yellow
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement Cable identification wire arrangement Material wire insulation	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow 978 brown, white, blue, black, green-yellow PVC
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement Cable identification wire arrangement Material wire insulation Amount wires	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow 978 brown, white, blue, black, green-yellow PVC 5
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement Cable identification wire arrangement Material wire insulation Amount wires Outer diameter insulation	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow 978 brown, white, blue, black, green-yellow PVC 5 3,1 mm
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement Cable identification wire arrangement Material wire insulation Amount wires Outer diameter insulation Outer diameter tolerance core insulation	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow 978 brown, white, blue, black, green-yellow PVC 5 3,1 mm ± 5 %
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement Cable identification wire arrangement Material wire insulation Amount wires Outer diameter insulation Outer diameter tolerance core insulation Conductor crosssection (wire)	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow 978 brown, white, blue, black, green-yellow PVC 5 3,1 mm ± 5 % 0,75 mm²
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement Cable identification wire arrangement Material wire insulation Amount wires Outer diameter insulation Outer diameter tolerance core insulation Conductor crosssection (wire) Min. operating temperature (static)	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow 978 brown, white, blue, black, green-yellow PVC 5 3,1 mm ± 5 % 0,75 mm² -25 °C
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement Cable identification wire arrangement Material wire insulation Amount wires Outer diameter insulation Outer diameter tolerance core insulation Conductor crosssection (wire) Min. operating temperature (static) Max. operating temperature (fixed)	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow 978 brown, white, blue, black, green-yellow PVC 5 3,1 mm ± 5 % 0,75 mm² -25 °C 85 °C
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement Cable identification wire arrangement Material wire insulation Amount wires Outer diameter insulation Outer diameter tolerance core insulation Conductor crosssection (wire) Min. operating temperature (static) Max. operating temperature (fixed) Operating temperature min. (dynamic)	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow 978 brown, white, blue, black, green-yellow PVC 5 3,1 mm ± 5 % 0,75 mm² -25 °C 85 °C -10 °C
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement Cable identification wire arrangement Material wire insulation Amount wires Outer diameter insulation Outer diameter tolerance core insulation Conductor crosssection (wire) Min. operating temperature (static) Max. operating temperature (fixed) Operating temperature min. (dynamic) Operating temperature max. (dynamic)	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow 978 brown, white, blue, black, green-yellow PVC 5 3,1 mm ± 5 % 0,75 mm² -25 °C 85 °C -10 °C 50 °C
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement Cable identification wire arrangement Material wire insulation Amount wires Outer diameter insulation Outer diameter tolerance core insulation Conductor crosssection (wire) Min. operating temperature (static) Max. operating temperature (fixed) Operating temperature min. (dynamic) Operating temperature max. (dynamic) Flame resistance	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow 978 brown, white, blue, black, green-yellow PVC 5 3,1 mm ± 5 % 0,75 mm² -25 °C 85 °C -10 °C 50 °C IEC 60332-2-2 UL 1581 § 1090 UL 1581 § 1100 FT2
Important installation notes Note on strain relief Note on bending radius Installation Cable wire arrangement Cable identification wire arrangement Material wire insulation Amount wires Outer diameter insulation Outer diameter tolerance core insulation Conductor crosssection (wire) Min. operating temperature (static) Max. operating temperature (fixed) Operating temperature min. (dynamic) Operating temperature max. (dynamic) Flame resistance chemical resistance	Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties. Attention: Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. brown, white, blue, black, green-yellow 978 brown, white, blue, black, green-yellow PVC 5 3,1 mm ± 5 % 0,75 mm² -25 °C 85 °C -10 °C 50 °C IEC 60332-2-2 UL 1581 § 1090 UL 1581 § 1100 FT2 Good, application-related testing
